

At Livonia Family Smiles, we're committed to giving every patient a safe, comfortable, and positive dental experience. The information below outlines one of the policies that helps us maintain that standard for everyone who walks through our doors.

Marijuana Use Policy

Now and always, the health, safety, and well-being of our patients and team come first. To support an environment where every patient receives attentive, appropriate care, we follow the process below regarding marijuana use.

- 1. Assessment Before Treatment:** If a patient arrives appearing to be under the influence of marijuana or presents with a strong odor of marijuana, the dentist may determine that treatment should be postponed. Being under the influence can affect patient awareness, comfort, or safety during dental procedures.
- 2. Children and Marijuana Use:** Marijuana use is not appropriate for children. If you are bringing a child for a dental visit, please avoid using marijuana before or during the appointment to help ensure a safe and comfortable experience for the child.
- 3. Rescheduling When Necessary:** If treatment is postponed due to concerns about marijuana use or odor, we will help you reschedule your appointment for a time when it is safe to proceed. Missed appointment fees may apply in accordance with our scheduling policy.
- 4. Respectful Environment:** Our goal is to provide a welcoming, professional space for all patients and staff. Strong odors or signs of impairment can affect others' comfort, so we appreciate your cooperation in helping us maintain a positive atmosphere.

Thank you for supporting a safe and healthy environment at Livonia Family Smiles. If you have any questions about this policy, please don't hesitate to reach out. We're here to help.
